Jonathan:

We need to get peroidic written updates to the progress being made at the Falcon Refinery. I would like an update on a weekly basis starting tomorrow. This only needs to be a paragraph or two describing any progress on getting the loan or any progress on cleanup.

Secondly, I need to find out who took over Superiors storage operations at the Falcon Refinery or if LTR1 is doing the storage under the permits of Superior or whatever the arrangements are for the operations. I need this information by tomorrow as well.

Thanks

Gary Moore
